

Read / Search SIMSList From any PC connected to the Internet at Any Time

- Perform these functions using the SIMSList icons at www.SimsWorkshop.org
- or Perform these functions using the URL below to connect to the SIMSList server

1. Click Read Mail icon at SIMSList, www.SimsWorkshop.org, or type into your browser <http://discuss.dundee.net/read/?forum=smslist>
2. Choose the Messages Tab to display and read Messages.
3. Create a message to send from this screen (may require login of email address + password)

Start Search by clicking the Search Tab at the top.

Use Advanced Search by clicking the text link "advanced search" and filling in the blanks

The screenshot shows the LYRIS ListManager interface. At the top, there is a dark blue header with the logo "LYRIS ListManager" on the left and user information on the right: "Come to Forum: simelist" and "You are: [not logged in](#)". Below the header is a navigation bar with tabs for "Messages", "Search", "Conference", "My Account", "My Forums", "All Forums", and "About". The "Search" tab is currently selected.

Advanced Search

Search for:

Search for these words in:

entire message body header

Show messages with any or all of these words:

any all

Excludes:
